

**Hussein Fayez Azzagheer “Abu Rida”
24 July 1985—1 August 2006**

Knowledge is a candle that lights the human’s mind

How wonderful and brilliant knowledge is! Knowledge is related to intellect and literature. It enables achieving goals and fulfilling the desires. It is the water needed for the thirsty, and the cover that dresses people to protect them from ignorance. This is knowledge.

It is not only about the importance of knowledge; it is also about the influence it has on the person’s character. If a certain person possesses knowledge, then he knows how to respect others and how to be respected, and his wisdom will appear when facing any problem. Moreover, the effect of knowledge will be revealed in his behaviour for he will have good manners and high values as well.
